CONNEMARA RUBBER.

EFFECT OF NEW PURCHASE.

[FROM OUR OWN CORRESPONDENT.]

Kuala Lumpur, April 16.

At the annual general meeting of Connemara Rubber Co., Ltd., Mr. Moullin, who presided, stated that the profit was \$8,766. It was proposed to write off the preliminary formation expenses. The estimate for the current year was 80,000 lbs. The new issues had been largely over-subscribed by the shareholders. The purchase of three blocks of land adjoining the Company's property, comprising 287 acres, of which 266 acres were planted, had altered the financial position. It would probably be necessary to advance the date of the calls. The question of opening up further 150 acres was deferred as there was neither supervision nor labour available. If a further issue was decided on, the shares would be issued at a premium.

Messrs. Kindersley and Moullin were re-elected Directors.
