## Most Prosperous Time NLB For Years.

The twenty-first annual general meeting of shareholders of Sungei Ramal Syndicate, Ltd., was held at Kuala Lumpur.

The chairman, Mr. E. G. Leyne, said: Our profit for the year-subject to directors' fees amounts to 71/4 per cent, on our capital, and your directors feel justified-in view of our strong reserves-in recommending a final dividend of 4 per cent. making a total distribution of 7 per cent. for the year.

I told you last year that our policy as regards the estate was gradually to eradicate undesirable growths such as stagmoss and bracken and to encourage others more desirable.

Visits to the estate by your directors leave them satisfied with the progress made by the latter and our steady advance towards a system of controlled forestry, but they are not satisfied that the continuance of slashing is the most economic method of ridding the place of stagmoss and they have therefore decided to completely eradicate it over a definite area yearly by forking and hand pulling where more desirable covers are now sufficiently in evidence to warrant this course.

As you will see from the report we have continued the tree to tree examination for root disease. Nearly 600 acres have been examined and the results continue to disclose a very small incidence of disease.

The introduction of restriction has given us the most prosperous year we have had for many years. I sincerely hope the scheme will work smoothly and permit the shareholders to receive regular and fair dividends for their investments in the company.

A final dividend of 4 per cent. was declared and the retiring director, Mr. D. H. Hampshire, was re-elected. Messrs. Neill and Bell were re-appointed auditors.
