1870-1900: Pembukaan Perkampungan Sekitar Bangi

Tarikh	Butiran Keratan
1870-1900an	"Sejarah Bangi". Faizal Hj Zainal, 2008

"Tarikh Dibuka: Bangi kemungkinan dibuka sekitar penghujung abad ke-19 iaitu diantara 1870 – 1880an, tarikh ini boleh di yakini kerana semasa ini juga kawasan-kawasan sekitar Bangi mula diterokai seperti Sg.Kembung, Rinching, Teras Jernang, Sg. Buah, Dengkil juga dibuka sekitar akhir abad ke 19. Dalam catatan usahawan Kuala Lumpur terkemuka Hj.Abdullah Hukum dalam akhbar Warta Ahad pada 1935, beliau pernah berkubu di Kuala Sungai Bangi pada sekitar 1870an semasa beliau menjadi juak - juak kepada Raja Mahmud (anak kepada Sultan Selangor). Kedatangan penghijrah dari tanah seberang (Sumatera) daripada suku Minang, Mendailing, Rambah, Jambi, Bengkulu, Palembang, Kerinci, Bugis, Jawa, Rawa dan sebagainya melalui Kuala Linggi, Jugra dan Kelang telah membuka banyak penempatan awal pekan-pekan dan kampung-kampung bukan sahaja di Daerah Hulu Langat tetapi di juga di seluruh negeri Selangor.

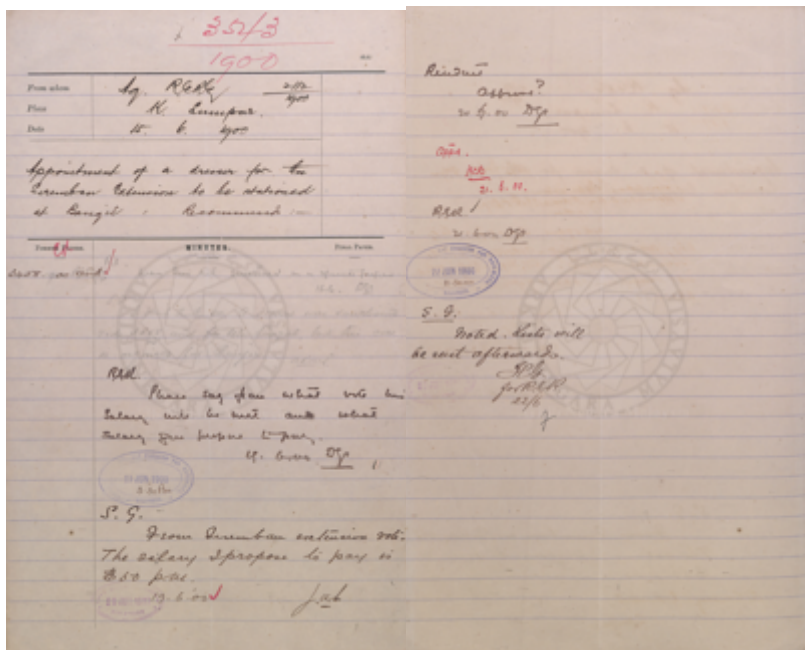

* Nama Bangi paling awal dijumpai pernah tercatat adalah dalam Selangor Journal pada 1896.

* Bangi tercatat dalam peta dalam naskah British Malaya yang diterbitkan pada 1905 oleh Frank Swethanham."

1900-06-15: Dresser di Bangi

Tarikh	Butiran Keratan
1900.06.15	"APPOINTMENT OF A DRESSER FOR THE SEREMBAN EXTENSION TO BE STATIONED AT [BANGI] : RECOMMEND:-". PEJABAT SETIAUSAHA KERAJAAN NEGERI SELANGOR @ Arkib Negara Malaysia

Perlantikan seorang “dresser” di kawasan Bangi, dengan gaji \$50 sebulan.

CATATAN: “Dresser” ialah jururawat am di zaman kolonial British, yang ditugaskan memberi perkhidmatan rawatan bagi warga sesuatu kawasan. Sedikit perihal keadaan kerjaya mereka ketika itu: *“The FMS were formed in 1895, with little co-ordination of medical provision between the states and no uniformity in provision until 1911. ... Prior to the arrival of colonial nurses, the FMS medical department was staffed by European surgeons and Chinese or Indian apothecaries, the majority being Chinese or Indian dressers and apprentices; the entire staff was male. Male dressers performed a role similar to that of nurses, but their responsibilities included additional tasks such as microscopy. Therefore, the role of a “dresser” was not equivalent to the role with this title in Britain at that time, which described medical students on surgical placements. This system of using dressers for the care of patients became unpopular with the British doctors and Residents (the term used for the representatives of the British government in each of the states comprising the FMS). In the 1893 Perak report, the Resident commented that patients in hospitals were only being looked after in the daytime and were left without nursing at night, when “many of their lives depend on being fed and attended to every hour.” In Negri Sembilan, dressers were learning and being slowly promoted on the job, but the Resident bemoaned the fact that they were “plunged straight away into the mysteries of surgery and medicine and the prescribing of drugs of whose action they know nothing.” In Pahang, the Resident was concerned that the Malay community did not generally attend hospitals, as they viewed the Chinese and Indian dressers with suspicion. In 1896, he suggested training Malay dressers to encourage the Malays to attend. However, he noted that the situation was still complicated as Malays wanted to be treated by female family members, and Malay families would not allow women to be treated in hospital.”* (Rosemary Wall and Anne Marie Rafferty, Oct.2017:

1902-1905: Pembukaan Pekan Bangi

Tarikh	Butiran Keratan
1902-1905	"Sejarah Bangi". Faizal Hj Zainal, September 14, 2008

"Pekan ini dibuka pada abad ke-20, kemungkinan pada sekitar tahun 1902 - 1905 . Pekan asal ini terletak bertentangan dengan stesen keretapi Bangi (sebelah dewan MCA Bangi mengunjur sampai ke sekolah lama Cina) , terdapat 18 buah kedai-kedai orang Melayu, India & Cina seperti kedai runcit, kedai songkok dan capal, kedai kopi, kedai candu, kedai timah, kedai getah dan sebagainya. Pekan ini mula berkembang serentak dengan pembukaan estet - estet getah & pembinaan stesen keretapi

Stesen Bangi dibuka pada Sabtu, 14 Jun 1902: “The Kajang Seremban line is really getting on and the first of the new stations, namely Bangee, about twenty-two minutes by rail on the Seremban side of Kajang, has been declared open for traffic. This reminds us that only a very short time ago, we heard that shop-keepers, apparently, found it cheaper to get their stuff brought to Seremban either by steamer to Malacca, and from that point on by bullock cart to Seremban, a distance of over—miles; or else by steamer to Kuala Klang, from thence by rail to Kajang, and from Kajang to Seremban by road, as long strings of bullock carts were constantly seen on this latter route conveying goods to the aforementioned town. We can only conclude that this method of transport is adopted, on account of high rates on the S. U. R. Surely it would pay the Company to keep all this goods traffic in their hands by lowering their rates.” (The Straits Times, 18 June 1902, Page 5:

Tarikh	Butiran Keratan
1902.06.25	"BANGI RAILWAY STATION - SPELLING OF NAME". PEJABAT SETIAUSAHA KERAJAAN NEGERI SELANGOR @ Arkib Negara Malaysia

Pejabat residen Selangor mengesyorkan pembetulan ejaan stesen keretapi "Bangee" sebagaimana yang telah dilaporkan di akhbar Malay Mail Singapura, kepada ejaan yang betul iaitu "Bangi". Kesilapan ini dikhuatiri akan kekal, sekiranya tidak dibetulkan segera: "You have no doubt seen in the Malay Mail a notice that a new Railway Station if today being opened for traffic at "Bangee", beyond Kajang. The name of the place is "Bangi" not "Bangee" as advertised. I think it would be well to ask the Railway Department to spell the name of the place correctly before the misspelling becomes established."

1905.12.21	"MAN-EATER KILLED AT ULU LAN GAT". The Singapore Free Press and Mercantile Advertiser (Weekly), 21 December 1905, Page 397

Berakhirnya riwayat seekor harimau yang berkeliaran di sekitar Ayer Itam (kini Kampung Pulau Meranti - Bukit Puchong) dan Bangi, hasil usaha seorang pemburu yang dikenali sebagai "Mr. Hay".

CATATAN 1: Gambaran lokasi secara kasar:-

Kemungkinan kawasan kejadian.

Kiri: Kemungkinan kawasan-kawasan kejadian, di sekitar Kampung Pulau Meranti dan Bangi, 1900-an (Edinburgh Geographical Institute, 1904 @ Yale University Library - Digital Collections:

["Selangor, Federated Malay States, 1904 / John Bartholomew & Co ; W.T. Wood, chief draftman"](#)).

Kanan: Kemungkinan kawasan-kawasan kejadian, di sekitar Kampung Pulau Meranti dan Bangi kini ([Mapcarta](#)).

Bulatan biru:-

- **7/12, 8 pagi:** Harimau menyerang 3 orang pemotong kayu di sekitar Jalan Ayer Hitam (13.5 batu / 21.7 kilometer dari Kajang - kemungkinan sekitar Kampung Pulau Meranti), ditetak di kepala, lalu melarikan diri. Semua terselamat.
- **7/12, 11.30 pagi:** Harimau yang sama mengekori salah seorang pemotong kayu tersebut, kemudian menyerang lalu membunuhnya. Mayatnya dibawa lari.
- **8/12:** Mayat pemotong kayu dijumpai. Jerat "spring gun" dipasang di sekitarnya. Jerat mengena: Bunyi das tembakan kedengaran selepas tengah malam.
- **9/12 (pagi):** Terdapat kesan darah di lokasi, dan bangkai harimau ditemui beberapa ela dari situ.
- **9/12 (malam):** Bangkai harimau dibawa ke Kajang.

Bulatan merah:-

Ukuran panjang badan harimau: 8 kaki 8 inci. Berdasarkan kesan luka tetakan di kepala dan kaki

harimau tersebut, serta tiada lagi kes seumpamanya setelah itu, kemungkinan harimau yang sama telah menyerang seorang lagi pemotong kayu di Bangi 1-2 bulan sebelumnya (beliau menetak kaki harimau dengan kapak ketika menyelamatkan diri). Sepanjang tahun tersebut (1905), di sekitar lokasi yang sama di Jalan Ayer Hitam, sejumlah 16 orang mangsa harimau telah dicatatkan. Mungkin sebahagian daripadanya adalah mangsa harimau ini juga.

CATATAN 2: Mr. Hay, individu yang berjaya membunuh harimau ini, dianugerahi upah sebanyak \$50 (kadar biasa: \$25) oleh pihak pentadbiran British, sebagaimana budaya lazimnya ketika itu: "There appears to be no doubt that this was a man-eater, judging by the account published in The Malay Mail. ... The D.O. may pay the double reward. \$50." (PEJABAT SETIAUSAHA KERAJAAN NEGERI SELANGOR @ Arkib Negara Malaysia, 11/12/1905:

"REWARD TO MR. HAY FOR KILLING A TIGER - RE :"). **MAKLUMAT LANJUT: William Hay.**

CATATAN 3: Menurut laporan di atas, kulit harimau ini dibawa ke **Muzium Kuala Lumpur**, yang telah menjadi sasaran pengeboman ketika zaman pendudukan Jepun, dan kini digantikan dengan Muzium Negara. Kemungkinan kulit harimau ini sudah tidak ada lagi?

1906.04.23	"APPLICATION BY MR. D. SUTHERLAND FOR 308 ACRES OF AGRICULTURAL LAND NEAR BANGI". PEJABAT SETIAUSAHA KERAJAAN NEGERI SELANGOR @ Arkib Negara Malaysia

Permohonan sebidang tanah seluas 308 ekar di Bangi, oleh seorang usahawan dari Australia, D. Sutherland, untuk tujuan penanaman getah. Beliau telah pun membina sebuah rumah di sekitarnya, serta mula menebang kawasan hutan di situ. Tanahnya berbentuk segi tiga, diapit oleh Jalan Reko di sebelah timur, tapak jalan baru (kemungkinan [Jalan Bangi-Salak \(Dibina sekitar 1907\)](#) di sebelah selatan, dan kawasan paya di sebelah baratnya:-

"...I have received an application by Mr.D.Sutherland for 308 acres (approximately) of State land near Bangi for rubber cultivation.

2. I put up a tracing which however does not supply such information as there are few holdings in the vicinity.

3. Mr. Sutherland has lately come from Australia with the idea of acquiring a moderate area to open and work himself with his own capital. He is willing to give reference to his Bank in Australia and informs me that it is not his intention to go into partnership with any other person or to float a company. He has already made arrangements, in the event of his application being approved to build a small house at Bangi and start felling and clearing the land.

4. It will be seen that the land is of a triangular shape one side having a long road frontage on the new Bangi Reko' road and one side having frontage on the trace of the new road for construction of which it is proposed to take provision in the Estimates for 1907. This shape is made necessary by the nature of the ground as there are swamps to the West which are of no use to a rubber planter. No one wishing to take up more that a small block could take the land in any other shape.

5. I recommend that this application being approved on the terms laid down for 1st Quality Land. I also ask, if the application is approved, that occupation may be allowed before survey, and that the land may be surveyed in the shape shown on the tracing.

*... - A(ctin)g: District Officer,
Ulu Langat."*

CATATAN: Lokasi tanah ini belum dapat dikenalpasti, kemungkinan lokasinya di kawasan bertanda biru di dalam peta-peta di bawah. Ada kemungkinan ini adalah antara kawasan ladang getah terawal di Bangi, dan bakal menjadi sebahagian daripada [Broome Estate](#). Kini kawasan ini telah dimajukan

oleh Mah Sing Group Berhad, sebagai [Southville City](#).
